

## Andrea Electronics' Announces PureAudio Live Recorder, a digital audio recording application for use with the iPhone and iPod Touch.

Noise-Canceling Digital Audio Software transforms iPhone™ and iPod Touch™ into more intelligible mobile recording devices.

BOHEMIA, New York, March 22, 2010 --Andrea Electronics Corporation (OTCBB: ANDR), a leading developer of innovative digital noise reduction and echo cancelation software technologies, today announced the immediate availability of its PureAudio™ Live Recorder.

PureAudio™ Live Recorder is a full function digital voice and audio recording application for use with Apple iPhone™ or iPod Touch™ devices. The PureAudio™ Live recorder is enhanced with Andrea's patented digital noise reduction microphone technology. PureAudio™ digitally reduces background noise, while enhancing the recorded sound quality and intelligibility when making recordings in real-world noisy mobile environments. WAV files produced by the PureAudio™ Live Recorder can be wirelessly transferred to your Mac or PC and are compatible with speech to text applications such as Dragon Naturally Speaking™ Preferred Edition.

"By utilizing our patented digital noise cancelation technology, the PureAudio™ Live Recorder takes mobile audio recording intelligibility to a new level for the iPhone™ and iPod Touch™," said Leonard Shoell, Sr. Software Engineer of Andrea Electronics. "Our new software product demonstrates our ability to create audio applications for the iPhone™ as well as our ability to port our technology to a new class of devices."

Below are some notable features of the Andrea Electronics PureAudio™ Live Recorder:

The application:

- Intuitive simple to use interface.
- Fast application start-up, for capturing quick impulse recordings.
- Recordings can be transcribed on your Mac or PC by using speech to text applications such as Dragon Naturally Speaking™ Preferred Edition.

Audio features:

- Digital noise reduction software to remove repetitive background noise from recordings.
- Microphone sensitivity boost allows for far field recordings.
- Different sampling rates to control the size and quality of the recordings.
- Three different recording formats: WAVE, CAF, AIFF.

Recording & Playback control:

- Easy navigation between recordings, using finger swipe gestures.
- Append to existing recordings.

Recording Storage:

- Unlimited recording time with device-memory read out.

-Organize, store and retrieve recordings using editable category folders.

Transfer Recordings:

-Wi-Fi sync quickly transfers audio files right to your computer.

-Directly email your audio files in real time, not just as a link.

The Andrea Electronics PureAudio™ Live Recorder application is now available for the iPhone™ and iPod Touch™ from the Apple iTunes™ Store. Visit the Andrea Electronics website [www.AndreaElectronics.com](http://www.AndreaElectronics.com) for more information.
