FOR IMMEDIATE RELEASE

ANDREA FILES COMPLAINT WITH THE
UNITED STATES INTERNATIONAL TRADE COMMISSION

According to the complaint, the respondents import products, such as desktop and laptop computers, that use the patent protected audio enhancement technology. Andrea has requested that the Commission institute an investigation and, after the investigation, issue limited exclusion orders and cease and desist orders.

An American Innovator
Andrea Electronics is an American-owned business operating since 1934. In the early 40’s, Andrea was one of the very first elite U.S. television manufacturers. In the 60’s the company designed the capsule’s intercom communication system used in the first manned Mercury space flight and military intercoms for F16 fighter jets and helicopters. Andrea’s microphone array and other advanced noise cancellation technologies have been embedded into hundreds of millions of computers and other devices. SuperBeam Stereo Array Microphone headsets and DA-250 digital microphone stand alone solutions for OEMs are among the latest innovations from Andrea Electronics.

About Andrea Electronics
Andrea Electronics Corporation designs, develops and manufactures audio technologies and equipment for enhancing applications requiring high performance quality voice input. The company's patented Digital Super Directional Array (DSDA™), patented PureAudio™ and patented EchoStop™ far-field microphone technologies enhance a wide range of audio products to eliminate background noise and ensure the optimum performance of voice applications.
